

# Full Stack Developer

I am looking to join a dynamic team where I can put my development skills into practice and contribute to concrete projects, while continuing to grow and learn.

**Youness M'hijane**

## Experience

### FULL STACK DEVELOPER (INTERNSHIP)

TeraByte Software | February 2025 – June 2025 | Kenitra (Hybrid)

- Development of dynamic web interfaces using React.js and Material UI (MUI).
- Integration of secure RESTful APIs (JWT, Spring Security) with a prior understanding of the backend logic.
- Use of Redux Toolkit and Zustand for advanced state management.
- Team collaboration via Azure DevOps within an Agile/Scrum framework (sprints, boards, reviews).
- Creation of reusable components, management of complex forms and CRUD operations.

### WEB & MOBILE DEVELOPER (INTERNSHIP)

GHM LABS | June 2025 – August 2025 | Kenitra (Remote)

- Development of a WordPress chatbot plugin with a user interface and administration panel.
- Contribution to the improvement of an existing mobile application developed with FlutterFlow.

## Projects

### ACADEMIC PROJECTS:

**Final Year Project (FYP):** Development of a decentralized music platform enabling the sale of works in the form of NFTs, with blockchain integration to ensure transparency and traceability. (React.js, Solidity, Truffle, Figma)

### PERSONAL PROJECTS:

**Weather App :** Application displaying real-time weather via an API.

**Todolist & Note :** Task and note management tool with basic functionalities (CRUD).

**Portfolio :** Personal website showcasing my background, skills and projects.

**E-commerce :** Online sales platform with product management and shopping cart.

**Syndic App :** A mobile application (SaaS currently under development) allowing entrepreneurs to manage their buildings and residents. Developed with Flutter and Firebase.

## SKILLS

**Programming Languages:** C, Java, Python, JavaScript, PHP

**Web Development:** HTML, CSS, React.js, Node.js, Express.js, MongoDB, MySQL, FlutterFlow

**Frameworks & Libraries:** React.js, Redux Toolkit, Zustand, Material UI (MUI), FlutterFlow (low-code), Flutter

**CMS & E-commerce:** WordPress (plugin creation, chatbot integration), Shopify

**Concepts & Methodologies:** Object-Oriented Programming (OOP), Agile Development (SCRUM), RESTful API Consumption, JWT Authentication, WordPress Plugin Development

**Tools & Environments:** Git, GitHub, Azure DevOps, Figma, PowerPoint, Microsoft Word, Google Play Console, Firebase

## Education

### Bachelor's Degree in Software Engineering

- Faculty of Sciences and Techniques, Errachidia | 2023 – 2024

### DEUST in MIP

- Faculty of Sciences and Techniques, Errachidia | 2021 – 2023

### Bachelor of Science in Physical Sciences

- Prince Moulay Rachid High School, Midelt | 2021

## Certificates

### COURSERA:

Python for Data Science and AI [2024]

Flutter and Dart: Developing iOS, Android, and Mobile Apps [2025]

## General skills

- ✓ Collaboration and technical mentoring
- ✓ Complex problem solving
- ✓ Adaptability to new technologies

## Language

**Arabic:** Native speaker

**French:** Intermediate (B1)

**English:** Technical (B1)
